The heart has four valves - one for each chamber of the heart. The valves keep blood moving through the heart in the right direction. The mitral valve and tricuspid valve are located between the atria (upper heart chambers) and the ventricles (lower heart chambers).. The aortic valve and pulmonic valve are located between the ventricles and the major blood vessels leaving the heart.

Top spot in the heart of the Dales Great pub/ restaurant - we ate there 5 times during a 10 night stay and without exception the beer/ wine/ food and service were all great. Top marks for the 'proper' steak and ale pie and genuine dog friendly atmosphere - including homemade biscuits.
